

Cutter scales

sturdy | reliable | hygienic

Advantages

- High stability combined with light design (approx. 125 kg)
- Suitable for charging trolleys in accordance with DIN 9797
- Low maintenance required
- Structure made of stainless steel 1.4301 (V2A)
- Can be combined with different weighing terminals
- Connection to process and ERP systems such as SAP or Navision possible

Weightlifting master class

The Höfelmeyer cutter scales have been specially constructed for charging with a 200 liter standard trolley. Their sturdy and hygienic design makes them an ideal weighing system for your production line. Typical areas of applications include recipe and dispensing management. We can guarantee high product quality and durability thanks to our long years of experience with cutter scales.

The optional connection to a process or ERP system allows the data to be integrated in your central data management.

Characteristics

- Frame and weighing cell made of stainless steel
- Low-maintenance pneumatics and bearings

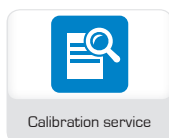

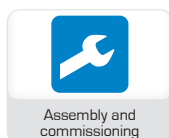

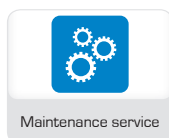

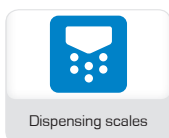

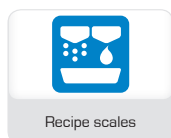

- Can be adapted to the set-up location by vertical adjustment
- Reduced noise level
- Protection category IP69K

Options

- Version with electro-polished round tubing
- Lifting cylinder made of stainless steel (U2) or aluminum (U1)
- Application-specific programming of the weighing terminal
- Integration in the recipe system
- Operated from the left-hand side

Weighing range	Increments	Dimensions
150 kg	50 g	1135x835x922 mm
300 kg	100 g	1135x835x922 mm

* Further weighing ranges, increments and dimensions possible.
