

weighing terminal HTF600E

freely programmable | can be calibrated | fast

Advantages

- Ethernet and USB connection on board
- WLAN can be integrated
- Fast, up to date processor technology
- Bright TFT display with wide angle of view
- Direct access to files in a PC network
- Customer-specific modifications possible
- Modular interface concept
- optionally available for ATEX 2one 2/22

The terminal for demanding applications

The HTF600E is an industrial terminal in a stainless steel housing for demanding applications in the chemical and pharmaceutical industry, in the food and other sectors. It is primarily used in goods inwards or dispatch, as delivery or shipping scales, as a checkweigher, for dispensing & filling systems, vehicle scales and mobile weighing systems.

Features

- Wall-mounting, tabletop and build-in versions in protection classes IP65 and IP69K
- Remote diagnostics possible
- Integrated alphanumeric keyboard, function keys and programmable soft-keys
- PC software to design printouts
- Powered via integrated 110-240 VAC or 12-30 VDC supply
- Operating temperature: -10 to +40°C at 95% rel. humidity
- 32 bit ARM processor, 266 MHz
- 1.5 MB memory (extensible)
- Real time multitasking operating system based on Linux
- Security: Data protected from power failure, password protection, internal alibi memory
