CHECKWEIGHER BASIC

The flexible all-rounder for dynamic applications

CHECKWEIGHER BASIC

RELIABLE AND PRECISE

Whether it's for completeness checks or fill quantity controls in accordance with the Pre-Packaged Products Act (FertigPackV): The Checkweigher is the perfect solution for the fast, accurate and completely automated weighing of packaged products. It can even be used on transport routes between individual production stages and as part of end-of-line checks. Thanks to its modular design, the Checkweigher can be flexibly integrated into any production line.

_ EASY LINE INTEGRATION

Thanks to a **flexible conveying direction** and **flexible conveying heights** of 750 to 1,250 mm, the Checkweigher Basic can be integrated into any production line quickly and easily, and can even be used flexibly with modified line layouts.

_ TOP TRANSPARENCY AND SAFETY

As well as allowing you to optimally document processes, the Checkweigher Basic allows process changes to be detected and corrected more quickly. In addition, thanks to the **100% in-line control**, production safety is ensured at all times.

_ REALLY EASY TO USE

Thanks to the **large and intuitive user interface** with its coloured LCD display, users can see all important process data and user information at a glance.

_ GREAT EFFICIENCY

Resources are saved thanks to the tendency control of upstream filling plants, minimising give-away.

_ DIVERSE POSSIBLE APPLICATIONS

The Checkweigher Basic has an extremely **broad performance spectrum**, with weighing ranges from 1,500 g to 30,000 g.

TOP 5 BENEFITS

1. CAN BE INDIVIDUALISED

Dynamic and effective: Thanks to the modular base structure, the Checkweigher Basic can be easily modified, extended and integrated into any production line.

2. FUTURE-ORIENTED

Numerous interfaces mean that the Checkweigher Basic can be flexibly adjusted in line with all IT systems.

3. LOW MAINTENANCE

Thanks to open, modular assemblies and options, the Checkweigher has impressively short repair and maintenance times.

4. TOP PRICE/PERFORMANCE RATIO

The Checkweigher Basic is a powerful entry-level model for efficient and dynamic in-line and end-of-line controls, allowing you to get started on your automation journey.

5. EASY HANDLING

Thanks to its smart design, the Checkweigher Basic can be transported from A to B quickly and easily.

WHY HÖFELMEYER?

OUR GUARANTEE OF SUCCESS

Right from the start ...

We sell our customers solutions rather than products. To do so, we first take a close look at your company and then we adapt our weigher to precisely meet the needs of your production environment. To the millimetre.

... to the very end!

We won't leave you on your own. We'll help with process integration and show you how to make the most of your opportunities to make your processes digital, more productive and resource-friendly with our innovations.

OUR SERVICES

ALWAYS THERE FOR YOU!

From comprehensive, custom advice to installation, process integration, commissioning and maintenance: We'll be a reliable partner for you for the entire production life cycle – working quickly and smoothly in the spirit of true partnership.

But there's more: We're even happy to help you with your third-party products!

Just ask.
