

HTF215 weighing terminal

simple | compact | can be calibrated

Advantages

- Bright TFT display
- Suitable for universal use
- Easy to use
- Suitable for mobile and stationary applications
- Online user interface available
- Online remote control possible

The universal one

The HTF215 is a robust industrial terminal in a stainless steel housing for straightforward tasks and use in harsh ambient conditions with strict hygiene requirements. Typical areas of application include weighing and counting with slip printout, weighing with online communication to the PC and simple quantity counting with slip printout.

- Powered via built-in 110-240 VAC or 12-30 VDC supply
- Integrated web server
- Operating temperature: -10 to +40°C at 95% rel. humidity
- Plastic hood for protection against soiling (optional)
- Available as remote display

Features

- Wall-mounted, tabletop and built-in versions with protection class IP 69K
- 5 keys for zeroing, taring, printing, counting and special functions
