

## Mobile Scale

flexible | individual | versatile

### Advantages

- Mobile scale solution for use in clean rooms
- All-in-one solution including log printer, battery level indicator, and tilt sensor
- Daily calibration to ensure the required process accuracy
- Completely flexible setup of the components depending on the application

# The All-in-One Solution

The mobile scale is a highly flexible and customisable product. It is used primarily in areas where companies are dosing individual ingredients, combining multiple components, counting, picking, or in measuring and ensuring various weights at different stages of production, regardless of industry.

Different weighing platforms with any requirements for platform dimensions or weighing ranges are conceivable. These make simple weighing tasks as well as individually programmed software sequences possible, giving operators a perfectly tailored program sequence. Various peripheral devices such as hand scanners make it easier to select articles, items in an order, or enter batch data. The integration of a printer provides log data and labels for the products. All of these components are housed in a modular transport frame designed with hygienic and ergonomic aspects in mind. This results in an optimal overall solution that helps you measure weights exactly wherever you need to.

## Applications/Software Applications

- Dosing/filling
- Issuing receipts
- Item counts
- Online

## Properties

- Working height: 850 mm
- Round stainless steel handle
- Transport: 2 swivel and 2 fixed castors for moving
- Stainless steel, 1.4301
- surface treatment, glass bead blasted, electropolished
- Protection class IP65/IP69

## Options

- Battery mode
- Printer
- Hand scanner
- Tilt sensor
- Wi-Fi

Technical characteristics				
Weighing ranges	Precision (e)	Precision (d)	Platform width	Platform length
3 kg	0.001 kg	0.0001 kg	170 mm	170 mm
6 kg	0.002 kg	0.0002 kg	320 mm	240 mm
15 kg	0.005 kg	0.0005 kg	400 mm	300 mm
30 kg	0.01 kg	0.001 kg	500 mm	400 mm
60 kg	0.02 kg	0.002 kg	600 mm	500 mm
150 kg	0.05 kg	0.005 kg	800 mm	600 mm
